

**DIAMETER** 12" / 305mm**WATTS** 60**IMPEDANCE** 8Ω**SENSITIVITY** 99.357 db

MojoTone Speakers are produced using soft parts from Europe. Our beloved BV series speakers are a favorite among guitarist of all genres. We worked closely with our manufacturing partners to ensure these speakers not only sound awesome, they also have an eye catching look. Our "V" speaker produces sparkling highs while maintaining a tight low end. Guitarist seeking a "scooped" sound will love our BV 30 V speaker.
